Please stop talking to me. I have asked you to stop. We don't have anything to talk about. You're clearly confused about what is happening to me. Stop. Thanks. Continue to do so, I'll file a court order. Thank you.

"Please do not remind or confront me about problematic issues that I have caused and cannot handle". No worries, I won't.

I have caused? I did not cause them. I have been speaking to experts in coercive control abuse who are willing to write reports for me. I did not cause the illegal eviction, nor force my ex landlords to lie in court and file a false statement to the court. If you think otherwise, you have wrong information.

In fact, I have audio of them admitting lying in court, and filing a false statement. So I do not know what yoh mean by I caused. I did not force Irish police to sexually assault me at gunpoint, nor did I force them torture me and slowly break my wrists ans thumbs, and leave me with spine damage.

So tell me again motherfucker how I caused anything

I did not force the corrupt elements of the Irish police to lie to the Helsinki Police - forcing me to apply for an attested Judgement in Ireland. They did that themselves. Which obviously, if I lived about, I wouldn't be able to get the Judgement. Or apply for it. Obviously if my ex-partner had been telling the truth, I would not have been able to prove she lied to the Police and been released from custody. As someone w laims to have gone through an abusive situation -

etc.

As someone who claims to have gone through an abusive situation - you definitely appear quick to believe lies. Which makes one think perhaps you're lying...

On the 3rd day of April, Anna Vuorivirta admitted to creating an entirely artificial situation, to financial domestic violence, to fraud, to lying to the police, and laughed about murdering me.

If there's another situation you're trying to say I caused because you got lied to, please clarify which so I can witheringly point out the evidence including medical records, expert statem , and such that contradicts that bullshit.

Considering I have filed police complaint re: false statement and bar complaint re: Anna.

Since you're so fucking confident you know the truth. Try me.

So I'm going to file a police complaint right and add to others, because I have been investigations re: defamation related to these

Do not keep raising your fucking fist at me. You were told to leave me alone. Mind your business, stay out of poisoned and false gossip or risk having your alcoholism cause you no end of trouble and more issue with police. It's not hard Janne. Ignore me. Take your frustrations with your life out elsewhere. Lawyers involved now. Leave me alone. E.F. Fluff

Don’t ever wave your fist in my face again. Not on the street, not in a pub, not anywhere. Is that clear? You are a grown man. Ignore me. Leave me alone. Sober up and understand this: if you continue to harass or try to menace me based on imbecile and false gossip, you will be causing yourself serious legal trouble. I’ve had enough. This ends now.

Kiitos paljon. I have no idea who told you I caused any of this. But I have spent since Dec 23 trying to regain access to a bag of documents that includes my medical records. And or being arrested at gunpoint then released when it is discovered the police have been lied to, again. No charges. Nothing. Just embarassed apologies. Thanks again for the apology. Hyvää Vappua.
